

Comfort Air® 100 Series Half-Facepiece Respirators

- Molded from pure silicone the wide interior flange, deep chin cup and rolled edges offer long-term comfort and fit
- Low profile design fits under most grinding or welding helmets and provides extended field of vision
- Large inhalation valves provide maximum surface area, reducing inhalation resistance while increasing user comfort and productivity
- Patented corrugated exhalation valve design and minimized "dead air" space provide low breathing resistance and added comfort
- Patented multi-position cartridge placement allows maximum compatibility with other PPE
- Textured no-slip face seal and swivel retainers ensure proper placement and provide a comfortable seal on a wide variety of faces
- Enhanced harness assembly features metal tabs finishes on nylon straps to prevent fraying allow easy adjustment when wearing gloves
- Ultimate Comfort
