

Delta™ Harnesses

- Patented triangular no-tangle design creates a frame that allows the harness to fall into place when donned
- Repel™ webbing is water repellent to reduce the attraction of mold and dirt, and has more abrasion resistance
- Revolver™ vertical torso adjusters eliminate loose ends and lock into place, preventing slippage
- Lanyard keepers hold your unused snap hooks and help reduce trip hazards
- Spring-loaded stand-up dorsal D-ring
- Impact indicators provide a visual alert that the harness has been involved in a fall
- Vest style harnesses are the most universal, and are used across a wide variety of industries
- Construction style harnesses have excellent tool-carrying capability, a sewn in hip pad, and a removable body belt
- Cross-over style harnesses have a front-mounted D-ring, making them ideal for ladder climbing and rescue applications
- Weight capacity: 420 lbs (190 kg)
- Certified to CSA standard Z259.10
