

## Pipe Fittings

There are many variations of fittings to suit a wide range of applications, providing the versatility to achieve any structural configuration. Kee Klamp® fittings are galvanized malleable iron castings designed to suit eight sizes of tube.

A standard hex key and tube cutters are the only tools required to create strong, rigid structures.

Recessed set screws, tightened by the hex key, firmly lock the tube into the fitting.

The set screw is manufactured in case hardened steel and is coated to protect against corrosion.

### KEE KLAMP®

- Simple method of constructing tubular structures
- Cost effective alternative to welding
- Galvanized to resist corrosion
